

In the claims:

Claims 1-16 cancelled.

17. (Previously presented) A method of making a medication, comprising the steps of making from an initial material an active medicinal substance in a therapeutic dose; making from the same initial material a potentiated medicinal substance produced by a homeopathic method; and producing the medication from the active medicinal substance in therapeutic dose and the potentiated medicinal substance produced by a homeopathic method.

18. (Currently amended) A method as defined in claim 17, wherein said producing includes placing the active medicinal substance in therapeutic ~~zone~~dose and the potentiated medicinal substance produced by a homeopathic method in different vessels, and transferring information from the potentiated medicinal substance produced by a homeopathic method to the active medicinal substance in therapeutic dose.

19. A method as defined in claim 17, wherein said producing includes impregnating the active medicinal substance in therapeutic ~~zone~~dose

with the potentiated medicinal substance produced by a homeopathic method
so that the active medicinal substance in therapeutic dose is a carrier for the
potentiated medicinal substance.

20. (Currently amended) A method as defined in claim 17,
wherein said producing includes dissolving the potentiated medicinal substance
produced by a homeopathic method in the active medicinal substance in
therapeutic dose so that the active medicinal substance in therapeutic dose is
a carrier for the potentiated medicinal substance.

21. (Currently amended) A method as defined in claim 17,
wherein said producing includes introducing the potentiated medicinal
substance produced by a homeopathic method into the active medicinal
substance in therapeutic dose formed as a paste so that the active medicinal
substance in therapeutic dose is a carrier for the potentiated medicinal
substance.

22. (Previously presented) A method as defined in claim 17,
wherein said step producing includes introducing the potentiated medicinal
substance produced by a homeopathic method and the potentiated medicinal
substance produced by a homeopathic method simultaneously into an organism

so that the active medicinal substance in therapeutic dose and the potentiated medicinal substance produced by a homeopathic method together make said medication in the organism.

23. (Currently amended) A medicine, comprising an active medicinal substance produced from an initial material in a therapeutic dose; and a potentiated medicinal substance produced from the same initial material by a homeopathic method.

Claim 24 cancelled.

25. (Currently amended) A medicine as defined in claim 23, wherein said active medicinal substance in a therapeutic ~~zone~~ is impregnated with the potentiated medicinal substance produced by a homeopathic method so that the active medicinal substance in therapeutic dose is a carrier for the potentiated medicinal substance.

26. (Currently amended) A medicine as defined in claim 23, wherein said potentiated medicinal substance produced by a homeopathic method is dissolved in the active medicinal substance in a therapeutic dose so

that the active medicinal substance in therapeutic dose is a carrier for the potentiated medicinal substance.

27. (Currently amended) A medicine as defined in claim 23, wherein said potentiated medicinal substance produced by a homeopathic method is introduced into the active medicinal substance in a therapeutic dose formed as a paste so that the active medicinal substance in therapeutic dose is a carrier for the potentiated medicinal substance.

28. (Currently amended) A medicine as defined in claim 23, wherein said potentiated medicinal substance produced by a homeopathic method is introduced simultaneously into an organism with said active medicinal substance in a therapeutic dose, together making said medication in the organism.

29. (Previously presented) A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is atropine sulfate while said potentiated medicinal substance produced by a homeopathic method is Atropini Sulfati C30 obtained by a consecutive dissolving and shaking in accordance with the homeopathic method.

30. (Previously presented) A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is acetyl-salicylic acid, while said potentiated medicinal substance produced by a homeopathic method is acilum salicylicum obtained by impregnation of a neutral substance which is milk sugar with a solution of acidum salicylicum with a potency C30 in accordance with the homeopathic method.

31. (Previously presented) A medication as defined in claim 23, wherein the active medicinal substance in a therapeutic dose includes 1.00 ml of Prednizolon, while the potentiated medicinal substance produced by a homeopathic method is potentiated Prednizolon in 1200 dissolving Cortex, C12 prepared in accordance with the homeopathic method.

32. (Previously presented) A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is Insulin, while said potentiated medicinal substance produced by a homeopathic method is Insulinum C30.

33. (Previously presented) A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is zinc paste,

while said potentiated medicinal substance produced by homeopathic medicine is Zincum Metallicum.

34. (Previously presented) A medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is Sarcocollin dissolve in potassium chloride, while said potentiated medicinal substance produced by a homeopathic method is Sarcocollinum 200.

36. (Previously presented) A method of treatment with a medication, comprising the steps of making a medication including an active medicinal substance made of an initial material in a therapeutic dose and a potentiated medicinal substance produced by a homeopathic method from the same initial material; and introducing the medication into an organism.

37. (Previously presented) A method of treatment as defined in claim 36, wherein said active medicinal substance in a therapeutic dose and said potentiated medicinal substance produced by a homeopathic method together form first the medication which is subsequently is introduced into an organism.

38. (Previously presented) A method of treatment as defined claim 36, wherein the active medicinal substance in therapeutic dose and the potentiated medicinal substance produced by a homeopathic method are introduced into the organism separately.
